LinkedIn X / @Floryne_ia Medium Trustpilot

Bilingual (French/English) SEO content writer and editorial SEO specialist with an engineering background in data and AI. **Founder of Magical Chart**, a bilingual content product where editorial SEO work took the site to **3,350 Search Console clicks and 220,000 impressions** in the latest tracked 3 month window, up from 456 clicks / 27,920 impressions in the first comparable 31 day period to 1,852 clicks / 119,582 impressions in the latest 31 days: 1,000+ editorial pages, keyword research, on page optimization, Schema.org structured data and AEO/GEO work for AI search visibility. Delivers real local SEO results for freelance clients (**Claire & Coloré**), and writes long form technical and statistical investigation pieces in French and English (see Selected writing). Comfortable with Google Search Console, GA4, Microsoft Clarity and Ahrefs, and with WordPress and light HTML/CSS.

Figures above are Google Search Console snapshots for Magical Chart, as published on the portfolio at florynepierson.com/portfolio. Dated screenshots, not live account data.

Experience

Founder & Developer Magical Chart

May 2026 - Present

- Built and operate a bilingual (English/French) content led AI product for tarot, astrology, Human Design and self reflection: **1,000+ editorial pages**, interactive tools and an AI companion ("Wooly").
- Designed and built a custom astronomical and astrological calculation engine (*astrology-core*, *astronomy-core*) with a dedicated validation suite, powering the **Star Map** feature: a location aware, Three.js powered 3D sky with named stars, adapted for mobile.
- Opened a public API (`/api/v1/natal`, `sky`, `stars`) so external AI agents can query the engine directly.
- Writes and tunes prompts for AI readings and the Wooly assistant under one ethical framework applied across every product; tuned model routing (migrated most generation from a larger to a smaller model) to bring cost down to about **$0.019 per generated report**.
- Owns editorial SEO, content planning and measurement (Search Console, Microsoft Clarity): see the headline figures above.
- Owns the full stack: Stripe payments, Supabase/Postgres, Vercel/Cloudflare deployment, authentication and access control hardening (anonymous access locked out of the database), and a **209 lesson tarot course** as the platform's core paid asset.

Education

Engineering Degree, Data Science & AI
ESILV, France
2021 - 2024 · **Ranked 4th nationally** (L'Usine Nouvelle, 2024)

Academic Exchange, Data Science & AI
Hanyang University, South Korea
2023 · Hanyang ranked **201 to 250 worldwide** in Computer Science & Information Systems (QS World University Rankings 2026 ↗)

Technical skills

SEO & GROWTH

Technical SEO · AEO / GEO · Schema.org · GA4 · Search Console · Microsoft Clarity · Ahrefs

ANALYTICS & BI

Power BI · Excel / VBA · pgAdmin · Stripe

LANGUAGES & DEV

Python · SQL · TypeScript · JavaScript · C · HTML/CSS · API design

AI & DATA SCIENCE

Machine Learning · scikit-learn · pandas / NumPy · TensorFlow / Keras · Prompt engineering · LLM cost optimization

CLOUD & INFRA

Vercel · Cloudflare · Supabase / Postgres · Docker · Linux · Git / GitHub

Founder & Developer Breathe

Oct 2026 - Present

- Designing and building an Android quit smoking companion app: daily progress, savings tracker, reminders and a growing 3D forest, with personal settings kept on device. Not yet published on Google Play.

Preview the app ↗ (breathing-sprout.vercel.app, click to open)

Live preview and asset files are still named "Breathing Sprout" on the portfolio; update those to "Breathe" for consistency once the rename is final.

Independent Digital Consultant

florynepierson.com

Sept 2023 - Present

- **Claire & Coloré** (beauty salon, live client site): built the site and local search content around services, visit information and the booking path. Latest 3 month Search Console snapshot: 1,577 impressions, 36 clicks, including 11 clicks at an average position of 5.99 on one local service query that already had visibility. Visit the site ↗ (claireetcolore.fr, click to open)
- Built and deployed **40+ additional website concepts** and small business sites (beauty, nail art, electricians, restaurants, real estate) as freelance and prospecting work, in WordPress and custom HTML/CSS/JS, each live on Vercel. CONCEPT / PROSPECTING WORK
- Ran keyword research and on page SEO (metadata, internal linking, site structure) and read Search Console data to prioritize improvements per site.
- Designed conversational assistant prototypes for real estate, language school and beauty clinic scenarios, showing how an assistant can answer common questions and guide a visitor to a next step. PROTOTYPE, NOT A CLAIMED DEPLOYMENT

Key strengths

- Independent, end to end product ownership
- Data driven decision making
- Clear technical and editorial writing
- Attention to detail and accuracy
- Critical thinking and fast problem solving

Business Data Analyst INTERN TO FULL TIME
Lobellia Conseil

Feb 2024 - July 2025

- Started as an intern and was **kept on as a full time hire** on the same data team.
- Analyzed **large scale French social security declaration datasets (DSN)** in a Big Data environment using SQL and PostgreSQL.
- Worked in a **team of about 10**, in **Agile/Scrum**, with weekly team meetings and sprint based delivery.
- Investigated data anomalies and inconsistencies and ran quality/consistency checks to improve reliability of analytical outputs.
- Produced operational reports and translated findings into recommendations for business stakeholders; managed SQL workflows with Git and pgAdmin.

Data Science & AI Intern Viaticum

May 2023 - Aug 2023

- **Independently managed** an AI project building a personalized travel recommendation model, from business need to technical approach.
- Explored and implemented machine learning approaches for recommendation relevance using Python and SQL, with Power BI for reporting.

Personal & demo projects

Plume AI bilingual listing writer

Live tool

- Designed and built a small tool helping estate agents draft property listings in French or English, generating a headline and several description styles from one input.
